Re: Dockets No. 00P-1211/CP1 and No. 99N-4282

Dear Commissioner Henney:

My letter is in support of thorough pre-market and environmental testing for genetically engineered foods and mandatory labeling of such foods.

It is simply ridiculous that our country is being blindly led down this unknown path. As usual, corporations are being allowed to run roughshod over the health and safety of Americans (and beyond!!) in their quest for bigger profits. Shame on them, and shame on our government representatives who allow it to happen.

Please take action immediately to ensure that I have the ability to make an educated choice about the foods that I eat.

Sincerely,

Wendy L. Osterman
